Dear Sirs:

We (LCTM) are a Yahoo! Groups Mailing List group in Spanish with 550+ members in many countries devoted to Märklin world since 2001. Actually we are the main source of knowledge and discussion in Spanish about Märklin trains.

Recently I was committed by LCTM to build a Web site about our activities and the Märklin world. In the construction of the pages, we use text, photos and data from many sources. To avoid copyrights violations, I'm asking about copyright policies to some firms, like yours.

Please reply me with the conditions for the inclusion on our site of:

- Your logo as a link to your page www.marklin.de,
- Your olds Logos as part of a "History of Märklin",
- Images scanned from catalogues, actual and older,
- Images captured from your Web site,
- Links to Spare parts lists, explosion schemes and other technical documents in your web site.

Always we refer the source of the inclusions.

We not carry any commercial activity, we are simply a group of Märklin fans.

Looking forward for your reply,
Yours faithfully,

Gerardo Rivero,
